The student is responsible for registering for the appropriate subjects offered in the programme enrolled and to adhere strictly to the Add/Drop procedure and deadlines accordingly.

Subject Registration Procedure
New students enrolled in KDU will be guided through the subject registration process by their respective ADH or PL during the Orientation/ Academic Briefing session. Existing students are required to complete the subject registration online for the next semester depending on class capacity and subjects offered three (3) weeks before the end of the current semester. The ADH or PL may designate subjects and grouping for the student(s) to register for the new semester (please check the Department notice boards).

Students are given a one (1) week period to perform the online subject registration. Any delays in completing the online subject registration and selection will not be entertained. Invoice for the following semester will then be distributed to the students.

In a short semester, students are expected to undertake approximately **two (2) to three (3) subjects**, or **nine (9) credit hours**, whichever is higher.

The student is responsible for ensuring that he/she is correctly registered for each semester by taking note of the following guidelines:

- **Selection of subjects** should be in accordance to the programme structure i.e. subjects offered at the lower levels are to be given priority over the higher level for completion.

- **Prerequisites**, if any, must be fulfilled (passing of the relevant subject) before proceeding to subjects of the next level. The School reserves the right to disallow any student to sign up for a subject if he/she has not passed the prerequisite subject, or if the class is full.

- Students who retake the subject(s) must have the "retake" subjects registered along with the ‘new’ subjects. Please note that students are only allowed a maximum of **two (2) attempts** for repeating each subject.

Any other academic conditions required by the programme must be fulfilled.

**ADD/DROP PROCEDURE**

It is the student’s responsibility to ensure that he/she has registered the correct subjects for his/her studies based on the advice given by the ADH or PL. In the event that the student has made a mistake or changed his/her mind, the student will be given **fourteen (14) days** from the commencement of semester to add and/or drop subjects online. After the closing date, “Add” / “Drop” is no longer allowed.

COMMENCEMENT OF CLASSES

Generally, KDU University College operates on three 14-week semesters in each calendar year. In each of the semester, there is an allocation of approximately two weeks of final examination at the end of the semester, although this could vary based on the number of public holidays during the period. Thus, in general, there are 3 semesters per year, namely, January - April, May - August and September - December.

This arrangement applies to all KDU University College programmes except the Bachelor programmes run by School of Hospitality, Tourism & Culinary Arts that operate on two (2) semesters system.

You are to view, check and be guided by the Academic Calendar issued yearly every November for the following academic year.

Students (new and existing) are required to attend the very first classes at the beginning of the semester to avoid missing important information that may affect lessons for the whole semester. The timetable is usually made available at the notice boards of the respective Schools.

CLASSROOM CONDUCT

It is the right of each student to participate in his/her learning and it is the responsibility of each student not to interfere with the learning of other students. Policies governing the classroom will be provided in each course syllabus and students who violate one or more of these policies will be subjected to disciplinary action.

ATTENDANCE REQUIREMENT

The student is required to achieve 80% attendance for each subject undertaken. Students who are unable to meet the 80% attendance will be issued with a Poor Attendance/Absenteeism Letter and will subsequently be barred from sitting for the final examination / submission of final assessment and will be awarded with no marks, unless there is a written appeal/explanation with supporting documents (Barring is at the discretion of the Schools).

Students who are on medical leave must provide a certified Medical Certificate from a recognised Medical Practitioner immediately in the following class after his/her medical leave.

Besides medical reason, requests for any absences are to be submitted in writing, indicating the reason and the duration of the requested leave. Supporting documents must be attached. The approval for leave of absence will be decided by the School.
COURSE STRUCTURE AND COMPONENTS
Each subject has a predefined structure/outline. Students are advised to obtain this structure/outline from the School if not already given. A subject may have several assessment components that aim to contribute towards the achievement of the learning outcomes of the subject. Students have to complete all components as prescribed for the subject.

Assessment components are spread over the entire semester for better assessment and evaluation of the learning outcomes at each and different points of time. The system is also aimed to enable students to gather marks throughout the semester instead of being evaluated on a concentrated 100% final examination.

CHANGE OF PROGRAMME
If students would like to switch from an existing programme of study to a new programme, the student is required to follow the following procedures:
• Ensure they meet the entry requirement(s) of the new programme
• Fill up the "Request for Change of Programme" form
• Receive approval from the Academic Head of the current programme
• Receive approval from Academic Head of new programme and the number of courses that can be transferred or exempted in the new programme
• Receive approval from the International Office for International student’s visa application to new programme (for International Students)
• Make submission to the Admission Office for registration to new programme.

DEFERMENT OF STUDIES
Deferment of studies refers to the approved period of non-study requested by student after starting a programme.

The duration allowed for deferment of studies is normally one (1) semester only. Requests for subsequent deferment of semester may be considered on a case-by-case basis, depending on the circumstances. Students are expected to report to KDU University College at the agreed RETURN date.

Failure to do so and the student will be deemed to have withdrawn from the programme. Students who wish to activate the status after the lapse of the deferment period are required to re-apply and pay a registration fee for re-admission.

Procedures and application for Deferment of Studies are as follows (This process must be completed by the 3rd week of semester commencement):
• The Student is required to fill up the Request for Deferment Form with relevant supporting documents (international students must provide confirmed air ticket to leave the country during the specific period of deferment),
Submit and receive approval from the Academic Department Head,
Notification will be provided once Deferment of Studies is approved.

Acceptable grounds for granting a deferment of studies:-
- An illness or disability (certified by a licensed medical practitioner or registered psychologist)
- Exceptional compassionate circumstances – for example, the death of a close family member (parent, grandparent, sibling)
- Major political upheaval or natural disaster in the home country requiring emergency travel and this has impacted the student’s studies
- A traumatic experience that has impacted the student (supported by police or psychologists’ report) and include:
  - Involvement in, or witnessing of an accident
  - Witnessing or being the victim of crime.

WITHDRAWAL POLICY
Withdrawal from studies applies to circumstances when a student voluntarily wishes to leave the University College permanently. Before making a decision to withdraw, students are strongly advised to meet with his/her Programme Leader / Academic Advisor / etc., to discuss the options available (e.g. deferment of studies, financial assistance).

A student who wishes to withdraw is required to fill in the “Request to Withdraw from Programme” Form and obtain the approval by the Academic Department Head/Head of School. The Student will then be directed to attend the Exit Interview with the Counsellor from the Student & Alumni Centre. The Counsellor will put in the recommendation and sign-off the form; a copy of the form will then be given to the student.

The Student can proceed to obtain the “Request for Refund” Form from the Admissions & Bursaries. The Student ID, a copy of the duly approved “Request to Withdraw from Programme” Form, and document for cancellation of student pass (for international students), if any; shall be submitted together to the Admission & Bursaries Department. The processing time is approximately three (3) weeks subject to the complexity of the case. Students will be notified when the refund is ready.

If the Student withdraws within fourteen (14) days from the date of commencement of semester, 50% of the tuition fees will be refunded. No refunds are allowed if student withdraws after fourteen (14) days from the date of commencement. There will be an administrative charge of RM250 for processing the application for withdrawal of studies.
ASSESSMENT & EXAMINATION

Assessment is essential as it helps students learn and also guide students in their development. It is an on-going process that helps to track and monitor the learning progress and measure the achievement of learning outcomes accurately.

The assessment tasks are directly related to the objectives of the registered subjects. The assessment modes adopted within the programme will be sufficiently varied to enable the student to develop the full range of knowledge and competencies.

The coursework (e.g. tests, quizzes, assignments, projects and / or other course components) and examinations will serve as evaluation tools to assess the student's performance and the marks will be recorded at all stages. Students are required to attempt all the different assessment components in order to pass the subject.

FINAL EXAMINATION RULES & REGULATIONS

Final examination normally contributes 30-60% of overall assessment weightage. Hence, it is important for students to understand the Final Examination Rules & Regulations clearly. Students are required to check with the Examination Department if he/she has any enquiries regarding the rules and regulations.

It is the responsibility of the student to check his/her eligibility for the examination. Students may appeal to be “unbarred” by the lecturer with a valid reason and supporting documentation.
SPECIAL CONSIDERATION

For long illness, the student is required to submit the medical reports from the hospitals to the school at the beginning of the semester. For sudden illness or situation, the student is required to submit the medical reports from the hospitals to the school immediately for special consideration.

EXAM TIMETABLE
Students are responsible to check the provisional final examination timetable that will be announced five (5) weeks before the commencement of the exam. Plagiarism is a form of cheating in the academic field. It is an action of copying works and ideas from others without giving them full acknowledgement for the production of the academic work (e.g. assignments, projects, thesis, dissertation, essays, or other equivalent written assignment). The effect of plagiarism is that the words are effectively ‘stolen’ and passed off as having been written by the author. Plagiarism can occur in respect to all types of sources and all media Eg: published or non-published text, speeches, illustrations, music score and etc.

KDU considers plagiarism a serious breach of academic conduct. Students who are caught doing so will face severe penalty decided by the Schools and the case may be brought up to the University College Assessment Board.

In order to avoid being penalised, where in doubt, you are urged to seek clarification from the lecturer prior to submission of such work.

KDU utilises Turnitin as a tool for assessing similarity between assignments and existing documents. A similarity index of more than 10% is recommended as grounds for investigation if the outcome is based on intentional plagiarism, unintentional plagiarism, improper/lack of citation, or mere coincidence.

If it was identified that the student has plagiarised his or her work the penalties can be one or combination of the following depending on the severity and whether there was any previous offenses:

- A warning letter issued by the School and recorded in the student file.
- A re-submission of the academic work within a suitable duration determined by the School with capping of re-submission mark to a Pass mark.
- An award of Fail grade for that particular academic work.
- An award of Fail for the particular course.
- Permanent exclusion from the University College.

The decision of the University College Assessment Board is final and there shall be no further appeal against this decision.
**MISCONDUCT & CHEATING**

Misconduct in the Examination Hall may include the act of cheating or attempting to cheat. Examples of the actions that constitute misconduct include the following, but are not limited to:

- Incessant talking in the Examination Hall
- General disobedience of examination instructions and procedures.
- Unruly and rowdy behaviour shown towards invigilators.
- Cheating, any acts, intentional or otherwise, that would provide an opportunity to enhance the performance of the students in the examination, with the use or unused, of relevant or irrelevant tools, materials and/or actions is a serious offence. A student will be asked to leave the Examination Hall immediately by the Chief Invigilators once he/she has been caught cheating.

Examples of cheating are:

- Copying, in part of whole, from an examination paper that belongs to another person.
- Use of notes, sources, and materials from items and/or electronic devices not authorised in the examination.
- Collusion or making arrangement with another student to cheat, including employing a surrogate to sit for an examination or any form of academic assessment mode, in part or whole, or agreeing to be that surrogate aiding and abetting the dishonest act.
- Bringing any other unauthorised items into the Examination Hall whether relevant or not, whether use or not, and irrespective of ownership.

All academic misconduct cases are presented to and considered by the University College Assessment Board. Where required, the students involved will be required to attend an interview for further clarification. Where appropriate, the cases may be referred to the Student Disciplinary Board for further actions.

The penalty imposed will be decided by the University College Assessment Board. The type of the penalty can be a recorded warning letter, a fail grade for the subject, suspension of a semester and termination of studies.

**ABSENTEEISM & REFERRAL**

A student who is absent during the final examination without any valid reason will be given an “XF” in the academic transcript. “XF” is equivalent to a fail grade.

A referral is an examination offered to the student who has missed the final examination for acceptable reasons. Student must provide detailed reasons and supporting documentation to the Examination Department. If the reason is medical, the supporting documentation from Government or Private Hospital (e.g. medical certificates, medical report) should be submitted to the Examination Department within five (5) working days after the actual examination date. Once approved, students will be allowed to sit for the referral examination.
Results obtained in the referral examination will replace the marks for the final examination. The final overall grade awarded will be in accordance with the normal grading system. However, if a student misses the referral examination, he/she will have to retake the subject.

Note: There is no referral examination for those students who has missed the resit examination or referral examination for any reasons.
RESULT AND GRADING SCHEME

PASSING MARKS AND GRADING SCHEME
Below is the standard KDU University College grading scheme which is applicable to all KDU programmes. **50% or GPA 2.0** is the passing grade. For Franchise Programmes, students shall refer to the programme handbook for the different grading scheme used. All franchise programmes grading scheme will be in accordance to the respective partner University’s practices.

For subjects which only have “Pass” or “Fail” grade, “P” will be awarded if the mark is **50 and above**. “F” will be stated if the mark is **below 50**. Subjects with only “Pass” or “Fail” grade will not contribute to average grade point calculation.
Based on the above grading scheme, a student’s academic performance is determined at the end of each semester by the **Grade Point Average (GPA)**. As an example, if the following grades were received by a student in a semester, the semester GPA will be equal to the sum of products (credit hours x grade points) divided by the number of credits taken (39.50/15=2.63).

Overall performance of a student in the programme is determined by the **Cumulative Grade Point Average (CGPA)**. CGPA is calculated by dividing the (Total product for all the semesters) with the (Total number of credit hours taken in all the semesters).

As an example, if the following grades were received by a student in semester 2, the CGPA of the student after Semester 2 will be equal to (39.50+37.00)/(15+15)=2.55.

**40% RULE FOR FINAL EXAMINATION**

With the 40% ruling, students must score at least **40% out of 100%** in the final examination in order to pass the subject, if the “Final Examination” is part of the assessment components.

Example: For Subject A, the continuous assessment component is 60% and the final examination component is 40%. The overall mark (continuous assessment mark + final examination mark) to pass the subject is 50%. Under the 40% ruling, Student A has obtained 45% from the continuous assessment component out of 60%, but only obtained 12% out of 40% (equivalent to 30% out of 100%) for the final examination, Student A will only be rewarded with an overall mark of 44% despite the fact that he has obtained 45%+12%=57%. In order to pass Subject A, Student A needs to score at least 16% out of 40% (equivalent to 40% out of 100%) in the final examination.

RESIT AND RETAKE
A Re-sit serves as a second chance offered to the student who has obtained an overall mark of 40-49 (D grade). The re-sit mark will only replace the Final Examination mark. The other assessment component mark will be added together with the Re-sit mark to calculate the final grade. The final overall mark will be capped at 50 marks (C grade).

Example:
Student A sat for Final Exam and obtained 18 marks. As the overall mark is below 50, he/she has failed the subject but is entitled to a Re-sit.

After the re-sit, student obtained 38 out of 40 in the re-sit examination, and receives an overall of 63 out of 100. But, student’s overall mark will be capped at “C” and 50 marks (even though the student has achieved 63/100 as this is a re-sit)

Absenteeism from the RESIT examination is not acceptable. Payments made for the RESIT paper(s) is / are not refundable. If a student misses the RESIT examination, he/she will have to retake the subject.

Retake is for a student who has obtained an overall mark of 0 to 39 marks, or a student who has failed the re-sit/referral, or a student who has obtained an overall mark of 40-49 after the final exam (entitled for a re-sit) but decides not to register for re-sit. Retake student will have to attend lectures and be re-assessed in the semester/term when he/she repeats the subject. The final grade awarded will be in accordance with the KDU University College grading system. The student is only allowed a maximum of two attempts for repeating the subject.
APPEALS AND RE-EVALUATION PROCESS
Anomalies or disagreement in marks obtained in coursework (e.g. tests, quizzes, assignments, projects and / or other course components) should be dealt with directly with the lecturer or the school.

For the final exam paper, if you are confident of an arithmetic error in the marks computed by the examiner and / or have other valid reasons, you may appeal for the remarking of the final examination paper. The student will have to obtain the “Examination Result Appeal Form” from the Admission Office or Examination Department. This form must be submitted to the Examination Department before the deadline stated in the Academic Calendar or within 5 working days upon the release of the examination result or semester commencement date whichever is later. A payment of RM100 is required for an appeal of one examination paper. Remarking is arranged and recommendations are made available to the University College Assessment Board for decision. The outcome of the appeal will be notified to the student by the Examination Department.

However, the results of the re-sit examination are final and appeals will not be entertained.

SAFETY TIPS
These are some basic precautions that students should follow no matter what city or country they are visiting. These precautions include:

- Walk with a friend as much as possible. At night, wait for buses with other people. If in doubt, call for a taxicab. Never hitch-hike or get into a car with someone you don’t know.
- If you drive, never give a ride to a stranger. Park your car in well-lighted parking structures or on streets where there are many people. Lock your car and use an alarm system. If you feel uneasy, particularly at night, ask someone to walk with you to your car.
- Look at the map and decide on your directions before you start walking in an unfamiliar city. If you need directions, ask someone in a store or restaurant. Avoid asking strangers on the street for directions.
- Leave your passport at home. Take a copy with you if you need it. Take only as much money as you need.
- If you are sick and cannot come to class, ask a friend or an International Office staff to inform your lecturers. If you are taking a trip, let your roommate or friend know where you are going. If you will be gone for more than two days, call your parents and tell them where they can reach you.
- Avoid using outdoor ATM machines, particularly at night.
- Keep your apartment or room door locked at all times, and do not give anyone your key. Ask for identification if someone says they need to enter your room, and then tell them to come back later if you are alone. Do not let anyone stay overnight in your apartment unless they are a close friend or relative.
- Avoid arguments with strangers. If you feel someone is verbally or physically abusing you, get away and seek someone with authority.
- Enjoy group activities with your friends but if you think something the group wants to do is wrong, don’t be afraid to say no. If you feel uneasy, tell your friends you have to go home.
